NTS: fit to page; do not measure this image.

Coordinates and dimensions use model metres, not a surveyed datum.

Source SHA-256 identifies an input; it does not certify geometry or compliance.

Lowest level model projection

Ground: model Y 5.33 to 10.72 m

978 source triangles projected; source evidence may be inferred.

NTS: fit to page; do not measure this image.

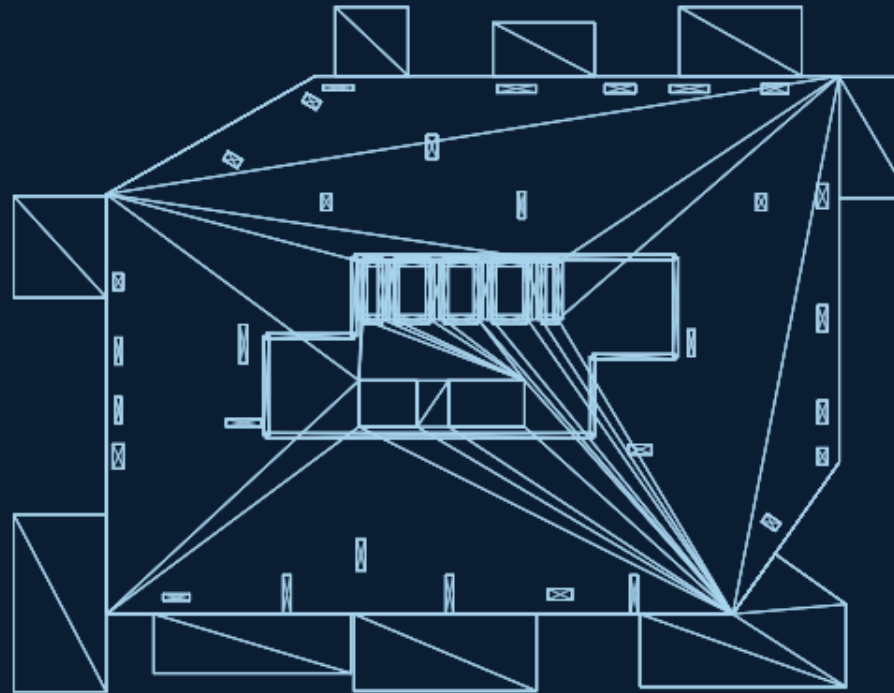

Coordinates and dimensions use model metres, not a surveyed datum.

Top projection of selected model categories overlapping this height band.

Not a cut plan: overlapping geometry and triangulation remain; model -Z is up, north unknown.

Upper level model projection

Level 01: model Y 10.72 to 14.03 m

1,020 source triangles projected; source evidence may be inferred.

NTS: fit to page; do not measure this image.

Coordinates and dimensions use model metres, not a surveyed datum.

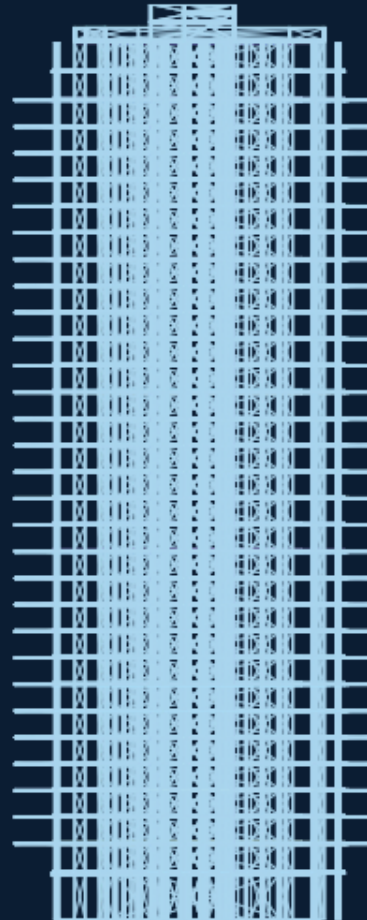

Actual model triangle projection; repeat floors, cores and partitions are not invented.

Not a cut plan: overlapping geometry remains; model -Z is up, north unknown.

Crown Wharf Canning Town – Block A4 structural review model

Model elevation projection

Orthographic X/Y projection of all model triangles; not a section cut.

30,576 source triangles projected; source evidence may be inferred.

NTS: fit to page; do not measure this image.

Coordinates and dimensions use model metres, not a surveyed datum.

Occluded edges remain; no structural, foundation or fire design is supplied.

Current model view snapshot

Raster capture of the current camera and visible state, when available.

NTS: fit to page; do not measure this image.

Coordinates and dimensions use model metres, not a surveyed datum.

A raster snapshot is not editable CAD geometry or a verified isometric drawing.
